3 February 2012

Log sales have hit the roof due to the launch of our website designed and constructed by Zena Bevan at Scarlet Zebra. The service Zena provided right from the initial design and clarification of needs stage has been truly faultless. I doubt anyone could find a better service.

Zena is incredibly skilled at extracting the right information from you, as a business provider, and using that information to design websites that are highly effective. Everything down to the logo, design colours and layout of the site was personalised with intricate attention to detail.

Communication with Zena is multi-faceted, swift and responsive. Zena's warm and friendly approach helped us to feel at ease and to know that she had everything completely under control. Her technical knowledge, for example, of how to ensure our website was listed highest in the Google ranks has ensured continuous business and a phenomenal hit rate.

Post launch aftercare is second-to-none. Zena is always on hand to help with any ongoing support which helps us to analyse how effective our business model is and to examine statistics which drive our business forward.

It would have taken me years to launch such an impressive website. If I were to use one word to describe the service provided by Scarlet Zebra it would be 'faultless'.

Thank you Zena.
